

Bikes -

There are not very many flat areas that make it easy to bike

We are a car community because the area to work & live is vast

5 South from SSC is the only major road which gets ~~stuck~~ jammed easily

One additional issue is tourists that creates additional traffic

Train track is only one, no room for additional tracks unless you put something in the middle of the I 5.

Connecting transportation from train to work takes additional time

High cost of rent in metro areas causes people to live further out from where they work.

Carpooling has ++-. The minus

More Freeway Lanes That Are Not Toll Road Lanes.  
to costly to use vs The Benefit

Too Late to Build Subways, Due to existing  
Infrastructure + Earth Quakes

- European models won't work here.

Trains have issues <sup>Expanding</sup> going into areas that may  
move people closer to their work due to unions  
such as municipality buses etc.

Monorail, much like what Disney has, is something  
to consider. It does not take much land  
to elevate the track like it would for a train

Toll roads are subsidized by ~~tax~~ payers and  
bonds guarantee their loans, why aren't we  
building more freeways. - funding should  
come from the gasoline tax. Some of that  
tax goes to the general fund - taking OC taxes  
to fund the rest of California

The misuse of taxes that are designed for roads  
are a problem.

The cost of driving on the toll road, will  
make drivers use the already congested roadways

Widen The 5 Freeway

Develop it BUT DO IT RESPONSIBLY

73 IS NOT TO CAPACITY + IS EXPENSIVE

TRAIN FROM SJC TO ORTEGA + LA PLATA  
THIS WOULD ALLOW PEOPLE IN RANCHO MU TO GO  
TO THE SJC HUB + THEN CONNECT UP NORTH

LAGUNA BEACH GETS 500,000 TOURIST IN  
THE 3 MONTHS OF SUMMER

- WIDEN THE FREEWAYS + 133
- MORE PUBLIC TRANSIT
- MORE RECREATION + BIKE TRAILS

WHY IS A REGIONAL ISSUE IN TOURIST AREAS  
ONLY BEING FUNDED BY THOSE CITIES.

- USE OF TRANSPORTATION HUBS WOULD BE  
APPRECIATED BY THOSE CITIES

MASS TRANSIT DOESN'T RUN CONVENIENTLY 24/7

- NEED MORE RUNS LIKE BART IN S.F.
