

## Notes:

1.) Coordination of Signal integration  
& a back up plan to the system  
OSO & Cabot                      Chuck Wilson

2) If 241 is extended to the 5, how does San Diego freeway take the extra traffic

3) Train System - doesn't run frequently enough for Millennials - btw 6-10 pm - as currently last 2 trains 4pm & 10pm

4) Accommodation of public transportation having extended hours, for those who work different than banker hours

Susan Sheakly

5) Local traffic - moving around in the towns we live in Irvine ~ alternative to using our own cars. ~ Maybe it's Uber Lyft, or taxi - people movers. - Moving sidewalks in congested city areas

6) Parking - for cars in shopping areas

7) Electric Bikes - Hubs for rentals or a way to credit those using

8) Center Shuttles - where you can get to a shopping center, stop & be brought home, carrying goods home is difficult, working with businesses & people to offer transportation, to lessen the individual driver

- 9.) Air drones to deliver goods to business community instead of trucks. Not sure what weight restrictions are.
- 10.) technology off of the ground & use above ground transportation ~ The Jetsons futuristic life
- 11.) ~~the~~ Feel that the information of these meetings could have been more publicized to have more citizens involved in these types of meetings
- 12.) Extension of 241 - segmental stages - to have it help some at times; then hopes it eventually open all the way down.
- 13.) Senior Mobility ≈ better way to transport seniors and the aging community ~ Uber/Lyft
